It seems that for the past four years Mr. Cleveland has been laboring under the delusion that the agile newspaper reporters didn't want to see him; and the aforesaid a. n. r.'s were under the delusion that he didn't want to see them, and so remained until the other day when he informed one of them that he never refused to see them when they sent in their cards, and was surprised that they should think he wasn't glad to see them, and now somebody is wondering what became of all these cards when Sec. Thurston took their dimensions.

The "coochee coochee" dance which recently formed a leading feature of entertainment at a swell dinner party in New York, is stirring up the moralists of that burg. As a proof of its propriety the dancers allege that they danced it before fifteen or twenty Senators in Washington, but they have not produced any testimony of the morality of the said Senators.

The water hyacynth is becoming a nuisance in Louisiana, Florida and other States, where by their rapid and dense growth they are obstructing the streams and interfering with navigation. The people are not quite reconciled to the situation by the discovery of a Florida man that chickens are very fond of them and fairly revel in that kind of provender.

The Legislature of Illinois has squashed the bill to pay the aldermen of Chicago a salary of $8,000 a year. We judge from this that the Springfield solons do not fully appreciate the value of the Chicago aldermen. With an $8,000 salary the city solon might be enabled to keep up style and do less larceny.

Although Rev. Sam Jones assured the Bostonians, when he went there with the commendable purpose of showing them how to save their souls, that "hell was not a half a mile" from their town, they do not seem to have warmed up to him, and his meetings were quite cold and poorly attended.

The New York *Times* has discovered that it takes $100,000,000 to support the criminals of the United States, by which it means the criminals in durance vile. It will cost a good deal more than that if the Republican party remains in power long.

Senator Hill is quoted as expressing the opinion that "Bryan is dead beyond resurrection," but he will not deny that Mr. B. is a pretty lively corpse. We would now like to have Mr. Hill's honest opinion as to his own status.

This is a busy season with the aldermen in some of the cities. The New York aldermen are tackling the sky scraping buildings and the Chicago aldermen the theater high hat.

In addition to its 12,000 applicants for Federal offices Ohio comes to the front with a hen that lays two eggs a day. This lays over the hens of other States.

"The World" Last Night—A Well Pleased Audience—Matinee This Afternoon and Evening Performance.

"The World" was presented at the Opera House last night before an audience which seemingly, judging by the appearance, enjoyed the performance.

The play is a melodrama and of course has some very dramatic scenes. Mr. Mart. W. Fuller as *Dennis* was perhaps the best in the caste. The rest of the players filled their respective roles very well. The scenery and mechanical effects were the features of the play, "The Sinking of the Ship" in mid ocean, the raft and asylum scenes being especially fine.

The play will again be presented tonight and at a special matinee this afternoon. Matinee prices 25 and 50 cents.

U. S. CIRCUIT COURT.

Argument in the Cape Fear & Yadkin Valley Railroad Case Concluded—Judge Simonton Orders Briefs to Be Submitted Within Thirty Days—Court Adjourned.

The hearing of the case of the Farmers' Loan and Trust Company vs. the Cape Fear & Yadkin Valley Railway Company et al. by Judge Simonton was resumed at 10 o'clock yesterday morning in the United States Circuit Court.

Judge E. J. D. Cross, representing the Baltimore committee, addressed the Court briefly, recapitulating his argument of the evening before. He gave as a reason for fixing the minimum price of sale at $2,000,000, that those figures were based upon the physical value of the road and represented 66⅔ per cent. of the appraised value, the usual percentage of appraisement.

Charles Steele, Esq., of the New York counsel, arose and said that there had been no concealment about the plan to buy the road, that he had been perfectly open and candid and had filed the bid nearly a year ago.

Charles V. Williams, Esq., of Richmond, representing the First National Bank of Richmond, the holder of a considerable number of consolidated mortgage bonds, contended that the divisional feature in the first mortgage was *ultra vires* and void, that the power conferred by the State was a power to make but one lien upon the whole road, and the policy of the State which requires the property to be kept together, could not be defeated by a divisional mortgage. He also argued that the holders of consolidated mortgage bonds were entitled to be remitted to their rights under the first mortgage.

H. B. Turner, Esq., of New York, counsel for the Farmers' Loan and Trust Company of that city, replied to Mr. Williams, assailing the latter's argument and taking strong ground against the correctness of his views.

At this juncture Judge Cross arose to read a proffer and tender on the part of the Baltimore committee, signed by Mr. William H. Blackford, chairman of the committee, to pay $2,000,000 for the entire road.

Upon Mr. Steel inquiring if any security would be given that this offer would be carried into effect, Judge Cross retorted that the security would be quite as good as that furnished by the New York committee. The offer was filed.

R. O. Burton, Esq., of Raleigh, appeared for J. W. Fries, receiver for the North State Improvement Company, the holder of a large number of second or consolidated mortgage bonds. He showed the policy of the State to be to preserve railroad property as an entirety at foreclosure sales, and he declared the Court to be positively unable to order a sale by divisions. There was but one franchise, he insisted. The purchaser is required by the statute to assume all the duties of the old company with the same obligations to the public, and that therefore there must be one sale. There being no way to estimate what this franchise is worth, as between the different sections, the safest method of valuation is the valuation by mileage, which would give about 10 per cent. of the proceeds of sale to the branch roads. He then showed from tables prepared by Mr. Fries that the branches yielded a profit which made them very valuable to the system.

Mr. George R. Rountree, Esq., of this city, appeared for Dr. W. A. Lash, trustee of the consolidated mortgage which, as decided by the Judge, has the first lien on the branch roads.

Cyrus B. Watson, Esq., of Winston, counsel for J. W. Fries, spoke next, describing the geography of the country through which the road runs. Regard must be had, he declared, not so much for the value of the road during the last five years as for its value in the next twenty-five. Division B and C would essentially have less competition than Division A and ought, therefore, to develop more rapidly.

The claim of the Mount Airy Granite Company was called up on motion of Col. J. T. Morehead, of Greensboro, counsel for the company, and reopened upon the question as to whether said claim constituted a priority over the bonded indebtedness. Mr. A. G. Ricaud, of this city, appeared for the plaintiff. The Court allowed counsel time to file briefs.

The Court then ordered that all briefs be filed within thirty days, upon which the consideration of the case will be taken up again. So that it is likely that the final decree of sale will not be issued before the latter part of February or the earlier part of March.

MEXICO THE BATTLE-GROUND.

Corbett-Fitz Fight, Stuart Says, Will Occur Across the Border.

CHICAGO, Jan. 14.—The fight between Corbett and Fitzsimmons is to be pulled off in Mexico. This was settled to-day by a personal message from Dan A. Stuart to his representative, Lou M. Houseman, of this city, which closed with the words, "Prepare your friends for a trip to Mexico." The fight will take place just over the Rio Grande, in either the State of Chihuahua, or that of Coahuilla. It was intended for a time to hold the fight in Nevada, not many miles from Carson City, but certain arrangements did not develop as expected, and Mexico has now been definitely decided upon as the battle-ground.

Cotton Receipts.

WILMINGTON'S SAVINGS BANK.

A New Departure—An Extra Dividend of One Per Cent to be Paid Depositors of Three Years Standing—A Six Per Dividend For Stockholders—The Bank in a Prosperous Condition—Its Stock at a Premium.

At a meeting of the Directors of the Wilmington Savings and Trust Company, held yesterday afternoon, the affairs of the bank were thoroughly discussed and a new departure, which has been under consideration of the Board for the past year or two, was adopted. From a conversation with Directors, the STAR gathered the following facts in regard to the affairs of the bank: Three years ago the Board determined to place this bank on as secure a basis as it is possible for any bank to be conducted on. No dividend was paid to stockholders for about two years. All the profits of the bank after paying interest to depositors was placed to the surplus fund to be used as an extra security to depositors and stockholders Last year the bank paid stockholders a dividend of five per cent., which was the first dividend paid them for about three years. As the surplus account continued to increase, it was decided the first of this year to pay the stockholders six per cent. per annum. The surplus of the bank of now 95 per cent. of the capital. This surplus has been accumulated by the most prudent and economical management. As the bank has not lost a dollar in over three years, the Directors decided to pay an extra dividend of one per cent. on all deposits in the bank now which have been standing in the bank for the past three years; thus any depositor who had one hundred dollars in the bank three years ago and did not draw any portion of the deposit within the past three years will receive $1.00 as an extra dividend. If he had drawn a portion of his deposit he will get his extra one per cent. on that portion which has been undisturbed.

The largest stockholder in this bank invested his money with a view to encourage savings—the profit to himself being a secondary consideration. This wise and liberal policy on the part of the bank of allowing a depositor to share, to some extent, the profits of the stockholders, besides getting his regular interest, will do more to encourage saving on the part of young and salaried people than any measure that could be adopted. If the prosperity of the bank continues, as the Directors confidently expect, the depositor from time to time will probably be treated to a small extra dividend. The depositor is guaranteed an interest of four per cent. per annum whether the stockholder makes money or not. Therefore the depositor gets his four per cent. interest certain, with a possibility of getting more if the profits will justify it. If the bank has a loss at any time the depositor does not share in the loss or have his interest reduced, as such a loss will fall entirely on the stockholder. Nothing argues more conclusively for the prosperity and security of this bank than the fact that those most interested in the stock of the bank will pay a premium of 25 per cent. on any stock offered for sale. There is no stock of the Wilmington Savings and Trust Company on the market and no stockholder seems disposed to sell his stock. The deposits in this bank have more than doubled within the past three years, which shows the high degree of confidence in which this institution is held by the community. The bank has paid in interest to depositors within the past twelve months over $8,000. It is hard to overestimate the value of such an institution in our midst. The Directors in the Wilmington Savings and Trust Company are H. Walters, B. F. Hall, D. O'Connor, Jas. S. Worth, W. A. Riach, H. L. Vollers, Donald MacRae and J. W. Norwood.

REV. JOSEPH CALDWELL HUSKE, D. D.

Dr. Huske finished his long and useful life Thursday night at half past 11 o'clock at the home of his daughter, Mrs. James Pearce, three miles from Fayetteville, N. C.

Joseph Caldwell Huske was born in Fayetteville, in the year 1823. His father, Mr. John Huske, was a substantial merchant and one of the most prominent citizens of the upper Cape Fear. He received his early training in Fayetteville at the Academy of Mr. Stewart, by whom many of the old boys of Wilmington were prepared for college. Mr. Huske graduated from Chapel Hill with honors in the class of 1843. He turned to the ministry for his life work, spent several years in preparation for holy orders and was ordained by Bishop Ives in 1847. He was sent by the Bishop to take charge of the two widely separated parishes, Lumberton and Morganton.

In 1849 he married Margaret, only daughter of Hon. Robert Strange, of Fayetteville, and for thirty-three years this happy couple lived in perfect love and peace together.

In 1851 Mr. Huske was called to St. John's church, Fayetteville, the church of his childhood. Here he ministered as the wise rector and beloved pastor for thirty-six years. Increasing infirmities caused him to give up the charge of St. John's ten years ago, and since then he has been rector emeritus. Not content with an honorary title and well-earned rest for his old age, Dr. Huske has been doing active missionary work in and near Fayetteville during this whole period. Only last Spring a beautiful little church, the outgrowth of his missionary enthusiasm, was consecrated by the Bishop of the Diocese.

From his entrance into the ministry Mr. Huske took a prominent part in all kinds of church work. He was on the important committees in the diocese, and was for many years a delegate to the General Convention. His Alma Mater conferred the degree of Doctor of Divinity upon him more than twenty years ago. He has been President of the Standing Committee of East Carolina since its creation into a diocese.

His whole life has been spent among his own people, and no man was ever more truly beloved or more highly respected. Single-hearted and free from ambition, his Bishop and fellow clergy have forced upon him every honor he would accept.

While staunch in his own convictions, he was so full of human kindliness that men of every school of religious opinion loved and respected him.

Sprung from the best blood of the State, yet so wide in his sympathies and simple in his manners that black and white, poor and rich, have been eager to do him reverence.

SENATORIAL SITUATION

CYRUS THOMPSON NOMINATED BY THE POPULIST CAUCUS.

Nomination Made Unanimous and Accepted by Thompson—Butler Threatened the Minority.

[*Special Star Telegram.*]

RALEIGH, N. C., Jan. 15.—The Populist caucus, on second ballot, nominated Cyrus Thompson for Senator. He received 23 votes, against 9 for Dockery. It is the opinion that the nomination is the very strongest the Populists could have made. Republicans admit this. Some of them say they have expected this nomination several days. Thompson was taken before the caucus and accepted the nomination, which was made unanimous. His resignation as Secretary of State will be demanded.

1 30 a. m.—Three Populist bolters have returned to the regular caucus and four more are expected to return.

The Populist caucus issues a long manifesto to the people of the State, in which it states its case against the bolters. Populist leaders all unite in saying Thompson's election is sure. The bolters will urge his resignation as Secretary of State. Republicans are greatly agitated by his nomination.

RALEIGH, Jan. 15.—Conference committees of the factions of Populists met to-day but failed to reach an agreement. Senator Butler visited Senator McCaskey, chairman of the bolters, at his home this morning. Butler at first urged McCaskey and his friends, a dozen of whom were present, to return to the majority caucus. Conciliatory talk failing to accomplish anything, Butler threatened the minority. He said he intended to run every Populist out of the party who voted for Pritchard.

Only fifteen Populists will support Pritchard. This is settled. With the support of all these, Pritchard's majority can only be two, provided all the Republicans support him.

[By Southern Associated Press.]

RALEIGH, N. C., Jan. 15.—The Populist caucus at midnight nominated Dr. Cyrus Thompson for Senator on the second ballot. Thompson, Dockery, Mott, Hileman and Guthrie were voted for on the first ballot. On the second ballot all except the first two were withdrawn, Thompson and Dockery receiving 28 and 9 votes respectively.

Senator Parker, of Randolph, one of the bolters, returned to the caucus last night. It is understood that he will vote for the nominee. It is not believed that Hardison, who went into the caucus with Parker, will desert Pritchard.

The situation virtually remains unchanged. Fourteen Populist votes in addition to the Republican votes will nominate Pritchard. It is claimed that at least eighteen will stand by him to the last.

At this hour there appears to be no reason for changing the prediction that Pritchard will be his own successor.

CUBANS ON TOP.

Fierce Fighting Is Going on Very Near the City of Havana—Spanish Massacres Are Continued.

NEW YORK, Jan. 13.—A special cable to the *Sun* from Havana says: The war is going on so fiercely around the city of Havana that Gen. Arolas has established his headquarters at Guanabacoa with a force of over 5,000 men besides those already there.

The capital is in constant commotion over the bold attacks made on the suburbs by the insurgents. San Miguel del Padron, a town very near Guanabacoa, and San Francisco de Paula have been burned by the Cubans after severe engagements, in which the Spanish troops were compelled to retire.

Every one here is astounded at all this, and in fear of a raid upon the capital itself. General Weyler refuses to talk on the situation, and in the privacy of his palace refuses to receive any one except the members of his staff and a few personal friends.

MASSACRES STILL CONTINUE.

Meanwhile, at the town of Guanabacoa, held by the Spaniards, the horrible massacres ordered by Fondeviella continue. Yesterday eight persons were killed in cold blood. With them was a son of the well-known American citizen, Mr. Hayatt, and he saved his life at the last moment only by asserting his nationality. The commander of the detachment which executed the eight Cubans appeared to hesitate about Hayatt. At last the commander said:

"Let him go to avoid complications. It would be a pity to have some diplomatic imbroglio that might stop this nice work."

— The first white shad of the season was caught last Tuesday about ten miles below the city.

WILMINGTON, N. C.

SATURDAY MORNING, JAN. 16, 1897

A GORGE OF MONEY.

We clip the following from the Washington *Post*:

"The New York *World* calls attention to the vast amount of idle money in that city. The clearing house banks have on deposit $548,000 000, and they have in addition to the reserve required by law a surplus of about $44,000 000. This surplus the *World* says, can be borrowed at 1½ per cent. per annum, but the banks are unable to find safe borrowers at even that low rate. The *World* states that at the same time delinquent taxpayers in Kansas are trying to borrow money in New York at 12 per cent. on real-estate security in order to discharge unpaid taxes that are bearing 15 per cent. interest. The *World* adds that 'all over the free silver West the legal and current rate for money is 10 per cent. Yet the enormous sums held by the New York banks are made up largely of Western money sent hither for investment at our very low interest rates in preference to investment at home.'

"The explanation of this state of things which the *World* offers is not altogether satisfactory. The sole reason is not to be found in Populistic legislation or lack of confidence in Western securities. It is true that the Populists in a few of the Western States have made war on capital, and thereby impaired credit. But the principal reason for this piling up of a large part of the currency in the banks of New York is the general dullness of business all over the country. There never was a time when it was easier to get money on good security than now, but business seems to be at a halt. Idle men and idle dollars are the significant features of the situation. We expect some relief will come from the passage of a tariff bill that will set idle men to work for a time, but that will not furnish a cure for all our financial ills."

The New York papers delight in calling attention to the large amount of money in the vaults of the banks of that city and in reply to the demand for an increase in the volume of currency point to this hoard and the low rates of interest as proof conclusive that there is more money in the country than it really needs. Taking it for granted that the *World's* figures are correct, the banks of Boston, Philadelphia and other money centers would also show a large amount of idle money which they would be glad to put out at a low rate of interest, but whatever they might show we have in one city money accumulated to an amount exceeding one-fourth of the total volume of money in the country, with loans obtainable on satisfactory security at an almost nominal rate of interest, and this, too, when the ordinary rate of interest in most of the country is not less than ten per cent., and in much of it nearly double.

With money in such superabundance in that city as to be an absolute drug, the *World* informs us that Kansas delinquent taxpayers are there trying to borrow money to pay their taxes and save the heavy penalty interest imposed on delinquents. Kansas taxpayers seeking to borrow in New York money to pay their taxes, and judging from the remarks of the *World*, without the most encouraging results, because they happen to come from a section and from a State which has protested against the present jug-handled monetary system that makes it possible to center so much of the money of the country in one city and in so few hands. And yet there are people who affect surprise that the inhabitants of Kansas and other Western and Southern States find fault with the present monetary system and demand a change which would bring about a more equable distribution of the volume of currency.

The only thing the Western farmers raised last year that brought a fair price was wheat and most of that had passed into the hands of buyers before the rise came. In some portions of the West, corn, the principal crop after wheat, is worth only eight or nine cents a bushel and is being burned because it is cheaper than other fuel. Populistic doctrine has nothing to do with this nor with the general depression in the agricultural and other industries which suffer because that does.

The man from Kansas and other Western "silver" States finds it difficult or impossible to borrow money in New York even when it is at a gorge there and begging for takers, because the New York money manipulators combined several years ago and resolved on the freeze-out game for Kansas and other States with similar money views, and they have been playing this freeze-out game ever since. With the view of starving that State into submission and silence they drew out the money they had invested in it, called in their loans and instructed their agents to lend no money in that State. That was when Populism first raised its head, and that's the programme they have been since carrying out. They selected Kansas as a fearful example of the results of rebelling against their dictation, and hence it is not to be wondered at that a Kansas man has difficulty in borrowing money from them when they will lend it to others on almost any terms.

The condition of Kansas is to a certain extent the condition of the States West of the Mississippi and of the South, most of which are guilty of the enormous crime of protesting against this sectional and local monopolizing of the money of the country, and when they want to get any of that idle money they must go hat in hand as petitioners, and promise to behave themselves in the future if they expect accommodation. If they want money from the royal money manipulators of Gotham they must cease chatting about free silver and let the money leaders of the money centers run the money business in their own way. This is substantially what all this rot about "lack of confidence" in the people of the silver States means.

When the people of the sections where money is scarce complain about it and demand that we return to the methods of our fathers which did not encourage this sectional and local monopoly of money they are met with the cry of "anarchist," "repudiator," &c., and when they ask that the right of supplying their own money, which was arbitrarily taken away, be restored to them they are called "inflationists" and told that there is money enough in the country, in proof of which they are pointed to these large idle hoards in the money centers of the East.

In all sincerity we ask if there is not something wrong, radically and horribly wrong in a system which makes such a state of affairs possible, which so accumulates the money of the country in a few cities, and enables its controllers to play the role of arrogant dictators to the rest of the country when it comes to them for money? There are arguments enough against perpetuating this monstrosity, but the one contained in this announcement of the *World* ought to be enough to wipe it out.

MINOR MENTION.

The Raleigh *News and Observer* announces it as a fact that the lobbyist has become quite conspicuous in Raleigh and has already begun to get in some of his devilment. A legislature without the cheering presence of the sociable and festive lobbyist would be a unique and somewhat lonely assemblage, but we do not think, however unique the present legislature may prove to be, there is any danger of its being neglected by the lobbyist or lonely for want of his attention. Counting out the U. S. Senatorship, which has already attracted to Raleigh quite a number of gentlemen (who, of course, have "other business") who will not fail to assist the legislature to select the proper fellow to keep a chair warm in the Senate, there is enough already slated of that kind of business which is sure to draw a large number of persons interested in the public weal and in other weals, especially other weals. With the railroad and other legislation that will come up in which certain corporations are interested, there need be no apprehension of a shortage on lobbyists. The danger is that they will be so numerous that it will not be easy to tell which is the Legislature and which is the Lobby, and we don't know whether to prevent doubts and confusion it might not be well to adopt the suggestion of Governor Pingree, of Michigan, and have the lobbyists duly tagged and registered.

***

As the indications are now Candidate Pritchard seems to have a pretty tight grip on the Populists who bolted the caucus, and bolted it simply because they did not wish to be bound by caucus action to vote against Pritchard, to whose re-election they were either directly or indirectly committed. With the solid Republican vote and the votes of these bolting Populists, he is sure of an election; but is he sure of the solid Republican support? There seems to be some doubt about this, for there are intimations of secret manoeuvering on the Republican side, and Harry Skinner says if Pritchard is defeated it will be by Republican votes. The probabilities are that the plotting did not begin in the Republican ranks until it became apparent that Pritchard had the clinch on these Populists. Notwithstanding the apparent hesitation of prominent Republicans to acknowledge that they are hankering for Pritchard's seat there is a pretty well grounded opinion that there are several Republican patriots who would submit to a draft without any violent protest, and wouldn't feel under any particular obligation to apologize to Candidate Pritchard for being *forced* to knock him out. It would add very much to the gaiety of the situation if a little racket was raised on the Republican side and it developed kickers enough to offset Pritchard's captured Pops.

***

The Richmond *State* announces that the penitentiary authorities in Virginia are going to make some experiments in the cultivation of sugar beets on the State farm, the coming Spring. The *State* commends this movement and urges the Board of Agriculture to co operate with the penitentiary authorities and provide for the proper sacharine tests of the roots. It is said that it takes about ten thousand acres of beets to supply the material for a factory that would do a reasonable and remunerative amount of business, and the only question is, (supposing that the beets can be successfully grown in this section) whether the beets or the factory shall come first. If the beets were to be had the probabilities are that the factory would be forthcoming, and if the factory came, making a market for the beets, there is as little doubt that it would soon have all the beets it could handle. As far as the farmers are concerned there is very little risk in the matter, for if they should fail to find a market the first year for what they raised they could utilize them in feeding stock and in other ways that would more than compensate for the labor and expense, while becoming familiar with the modes of culture. As North Carolina has a couple of pretty big farms, our penitentiary authorities might follow the example of the Virginia penitentiary and do some experimenting on this line.

CURRENT COMMENT.

—— Pity the poor gold Democrats who were appointed to fat judicial positions and who were not going to be confirmed by the Senate. They are in a position to sympathize with the silver Democrats who were robbed out of their jobs by the administration.—*Washington Post, Ind.*

—— We are under obligations to an esteemed correspondent for "five reasons why McKinley should appoint an Afro-American to the Cabinet." As like as not some other correspondent will furnish us with five hundred reasons why he shouldn't.—*New York Advertiser, Rep.*

—— Senator Mills says that the symbol of Italy's greatness is a monkey and organ grinder. This is a specimen of that kind of statesmanship of which the American people are very weary. The land of Mazzini, Garibaldi, Dante, Tasso, Angelo and Verdi has special distinction among the nations of the earth, but perhaps the Texas Senator never heard of these names and the achievement of their owners.—*Macon Telegram, Dem.*

—— Although the imports of iron ore have decreased since the duty was reduced from 75 cents per ton to 40 cents per ton by the passage of the Wilson Tariff bill, the Western ore producers are asking for the reimposition of the McKinley rate. This is intended as a direct stab at the prosperity of iron and steel manufacturers east of the Alleghenies, who as a condition of competitive production with the users of Superior ores must have access to cheap sources of foreign supply. To increase the duty on iron ore would not in the least add to the Federal revenues, but it would do grievous injury to Eastern Pennsylvania and Maryland iron and steel makers.—*Philadelphia Record, Dem.*

"What for?" gasped his friend.

"Then my wife would have to wear skirts in order to show her contrariness."

Let The Whole World Know The Good Dr. Miles' Heart Cure Does

HEART DISEASE, has its victim at a disadvantage. Always taught that heart disease is incurable, when the symptoms become well defined, the patient becomes alarmed and a nervous panic takes place. But when a sure remedy is found and a cure effected, after years of suffering, there is great rejoicing and desire to "let the whole world know." Mrs. Laura Winefinger, of Selkirk, Kansas, writes; "I desire to let the whole world know what Dr. Miles' Heart Cure has done for me. For ten years I had pain in my heart, shortness of breath, palpitation, pain in my left side, oppressed feeling in my chest, weak and hungry spells, bad dreams, could not lie on either side, was numb and suffered terribly. I took Dr. Miles' Heart Cure and before I finished the second bottle I felt its good effects, I feel now that I am fully recovered, and that Dr. Miles' Heart Cure saved my life."

Dr. Miles' Heart Cure is sold on guarantee that first bottle benefits, or money refunded.

SPIRITS TURPENTINE.

— Goldsboro *Argus*: The cotton is not yet all marketed from this section of farming country. There was plenty of the fleecy staple on this market to day. And there is more to come.

— Rocky Mount *Phœnix*: We regret to announce the death of Mr. Meady W. Proctor from a chill. He was a prominent farmer and mill owner, and lived about seven or eight miles from Rocky Mount in Edgecombe.

— Fayetteville *Observer*: The police had a desperate battle with robbers on Person street last night which resulted in the shooting of policeman Buckingham and the escape of the robbers, four in number, two of whom were probably hurt.

— Charlotte *News*: Mrs. Columbus Hodges died yesterday at her home in Crab Orchard township. —— Mrs. Maggie B. Jones, wife of Mr. W. R. Jones, died last night at her residence on College street. She had been sick with pneumonia ten days, but not until yesterday morning did a dangerous condition develop.

— Wilson *Advance*: On last Sunday the body of a white man was found in the Woodard Warehouse. At the inquest which followed it was found that deceased was one Gus Burnett, and that he had probably died from exposure. It was further developed at the inquest that he had been last seen alive on the day previous (Saturday) at which time he was under the influence of liquor.

— Chatham *Record*: We regret to hear of the death of Mrs. Emeline Foushee, which occurred on last Sunday night at the residence of her son-in-law, Mr. D. T. Johnson, of Raleigh, with whom she had been residing for several years. She was the widow of Dr. Robert J. Foushee, deceased, who resideded about thirteen miles east of this place on the Raleigh road.

— Charlotte *Observer*: J. C. McCurry, a wealthy and very prominent citizen of Marion, died Tuesday night at Hot Springs, where he had recently gone for his health. Mr. McCurry represented this county in the lower House of the Legislature in 1883, and also in 1893. He was appointed postmaster by Mr. Cleveland in the Summer 1893, which position he was filling at the time of his death.

— Clinton *Democrat*: Mr. Daniel White Bland died at his home at Bland, in this county, Monday night, after a lingering illness. He was a highly esteemed citizen and was a consistent member of the Baptist Church. He was postmaster at Bland. His age was sixty years. ——Mrs. Milton Powell died at the home of her son-in-law, Mr. E. Williamson, in South Clinton, Saturday morning at 3 o'clock. She had not been well in several days. Last week she had a fall while visiting at Mr. Williamson's and had not since been able to return home. Her death was not expected.

adds nothing to the *cost* of Solid Silver Spoons and Forks, but *does* add to their desirability the absolute guarantee of Sterling worth. Their beauty of design and perfect workmanship speak for themselves —and always.

Too good for Dry Goods Stores— Jewelers only.

— Mount Airy *News*: Mr. James Hiatt, who resides in the Ash Hill section, was out in the woods one day last week gathering a load of pine, when he came across a hat and pair of leggings. This excited Mr. Hiatt, and he went home and got some of his neighbors to return with him to the spot and make further search, which resulted in the finding of what appeared to be a man's knee protruding from a pile of leaves. This so frightened the searchers that they immediately summoned Coroner Armstrong, who repaired to the place and "unearthed" a pair of pants stuffed with good, new men's underwear! Although no corpse was found, the appearance of the hat, leggings and clothing in that place is shrouded in mystery. The articles found are said to be worth some six or eight dollars.

Sour

Stomach, sometimes called waterbrash, and burning pain, distress, nausea, dyspepsia, are cured by Hood's Sarsaparilla. This it accomplishes because with its wonderful power as a blood purifier, Hood's Sarsaparilla gently tones and strengthens the stomach and digestive organs, invigorates the liver, creates an appetite, gives refreshing sleep, and raises the health tone. In cases of dyspepsia and indigestion it seems to have "a magic touch."

Electric Bitters.

Electric Bitters is a medicine for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c. and $1 00 per bottle at R. R. BELLAMY'S Drug Store. †

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria is the Children's Panacea —the Mother's Friend.

Castoria destroys worms, allays feverishness, cures diarrhœa and wind colic, relieves teething troubles, and cures constipation.

Castoria contains no paregoric, morphine, or opium in any form.

"For several years I have recommended Castoria, and shall always continue to do so as it has invariably produced beneficial results."
EDWIN F. PARDEE, M. D.,
125th Street and 7th Avenue, New York City.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D.,
111 So. Oxford Str., Brooklyn, N. Y.

"The use of Castoria is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."
CARLOS MARTYN, D. D.,
New York City.

The Morning Star.

WILMINGTON, N. C.

SATURDAY MORNING, JAN. 16, 1897

SPOTS AND FUTURES.

Net Receipts at the Ports—New York Sun's Review of the Cotton Market.

By Telegraph to the Morning Star.

NEW YORK, Jan. 15.—The following are total net receipts of cotton at all ports since Sept. 1, 1896: Galveston, 1,116,069 bales; New Orleans, 1,590,584; Mobile, 225,161; Savannah, 652,470; Charleston, 331,085; Wilmington, 216,045; Norfolk, 595,733; Baltimore, 43,293; New York, 90,108; Boston, 114,958; Newport News, 8,780; Philadelphia, 27,637; West Point, 50; Brunswick, 71,469; Port Royal, 54,767; Pensacola, 46,093; Texas City, 43,354; Velasco ——. Total, 5,230,438.

The *Sun* says: Spot cotton here was unchanged with sales of 600 bales for export and 85 bales for spinning; 100 bales were deliveries on contract. Middling uplands 7 5-16c. against 8 3-16c. last year; New Orleans and Gulf 7 9-16c. against 8 7-16 last year. The trading today was devoid of new or interesting developments. The speculation, what there was of it, was confined for the most part to local scalpers, and the fluctuations in prices were within a narrow range with the tendency downward. The first quotations showed irregular changes, near months showing lower and distant deliveries slightly higher. The tone became somewhat firmer and at one time the general list was a trifle higher than last night's final quotations, but even this slight improvement was soon lost in the absence of local support and prices slowly receded, closing at about the lowest figures of the day. The receipts at the interior towns for the week were slightly larger than last week, and Liverpool sold here at one time, but the worst feature was the dullness of speculation. The Southern spot markets were firm, better advices were received from the dry goods district and Liverpool was higher, but owing to the intense dullness prices weakened.

GRAIN AND PROVISIONS.

Wheat, Corn and Oats Weak and Declining—Pork Products Closed Lower.

By Telegraph to the Morning Star.

CHICAGO, Jan. 15.—May wheat opened from 80¼@80¾c. sold between 81 and 79⅝c, closing at 80c—½@⅝c under yesterday. Cash wheat was irregular, closing weak and ½c lower.

Corn—There was nothing doing in the corn market. May corn opened at 24⅝c, advanced to 25c, declined to and closed at 24⅝c—⅛@⅜c under yesterday. Cash corn was firm at unchanged prices, closing nominally easy.

May oats closed ⅜@½c lower than yesterday. Cash oats were firm whilst trading was under way, but the nominal close was weak with the futures.

Provisions—The feeling at the opening exhibited a continuation of yesterday's strength, although business was light. Later, packers sold freely and prices yielded to the pressure. May pork closed 13½c lower, May lard 5c lower and May ribs 7½c lower.

U. S. MARSHAL KILLED

In a Fight with Illicit Distillers in Breathitt County, Ky.

By Telegraph to the Morning Star.

LOUISVILLE, Jan. 15.—The Lexington *Dispatch* confirms the report of the killing of Deputy U. S. Marshal W. A. Bird in Breathitt county yesterday. Bird had arrested Sam Neace for moonshining and was riding to Jackson with Neace on his horse behind him. Jacob Neace and Dan Farley, relatives of the prisoner, overtook the marshal and demanded that Neace be released. Neace rolled off the horse and his relatives began firing on the officer. Bird returned the fire but Jacob Neace shot him through the breast. Bird then shot Sam Neace in the leg, when his horse plunged into the river and swam across. When the animal reached the bank Bird fell off dead. This was the third attempt that the moonshiners had made to kill him.

BUSINESS SITUATION.

No Noticeable Change and Few Indications of Improvement in the Near Future Except at a Few Southern Cities.

By Telegraph to the Morning Star.

NEW YORK, Jan. 15.—Bradstreet's says: Except at a few Southern cities, as reported last week, wholesale merchants throughout the country report no noticeable change in trade relations and few indications of improvement in the near future. Mercantile collections continue slow. Some jobbers at Chicago, St. Louis, Baltimore and other large cities report increased demand for dry goods, hats, shoes, hardware and groceries for Spring delivery, but that in other lines business is very dull. Dealers in staples at cities in Texas, Louisiana, Georgia, Tennessee and South Carolina report a better demand for hardware and agricultural supplies, compared with last year. Some Baltimore salesmen are securing relatively fair orders. There has been no revival in textile fabrics, except purchases of wool at Boston by some of the larger manufacturers. Cotton goods continue depressed at first hands, with little prospect for improvement until after production has been restricted. December gross railway earnings are relatively more favorable than those in preceding months, showing a decrease of 1.5 per cent. from December, 1895. The best December reports were by the Southwestern and Southern roads, which show gains over December totals in 1895.

Bradstreet's comparison of prices of 108 staple articles and products at quarterly intervals for a series of years show an upward tendency on the part of quotations during the last quarter of 1896. Advances during the last quarter of 1896 were conspicuous among most of the leading cereals, live stock meats, dairy products, some vegetables, hides, leather, wools, various grades of iron, copper, lead, brick, glass and spruce lumber. Prices this week show advances for leather, pork, lard, petroleum and cotton, while decreases are reported in prices of hides, wheat, corn, coffee, pig iron and steel billets. Heavy stocks continue to depress cotton goods. Iron and steel have not met the decreased demand expected, while sugar and coffee prices have been affected by competition among leading dealers.

There have been 467 business failures in the United States this week, compared with 488 last week, 412 in the second week of January, 1896, 378 in the like week of 1895, and as compared with 404 in the corresponding period of 1894.

HOUSE OF REPRESENTATIVES

Resolution Concerning the Union Pacific Railroad—Contested Election Case—Pension Bills Passed.

By Telegraph to the Morning Star.

WASHINGTON, Jan. 15.—Mr. Allen, Republican, started business in the House to-day by presenting a resolution calling on the Secretary of the Interior for information as to why patents had not been issued for lands secured by *bona fide* purchasers from the Union Pacific Railroad Company, the lands having been given the company under Government grants. The resolution was agreed to.

Mr. Johnson of Indiana, Republican, secured the adoption of a resolution providing for expediting the contested election case of Benoit vs. Boatner from the Fifth Louisiana District so that it might be disposed of at the present session.

Quite a little opposition developed over a resolution from the Committee on Accounts for the employment of fifteen folders for two months to refold documents that had been injured in the fall of a building during the hurricane here September 29th last, and finally the yeas and nays were ordered on the amendment to distribute the places among the States that had no appointments on the roll at present. The amendment was rejected and the resolution adopted after another roll call.

The regular order was then demanded. This was the consideration of private bills and the House spent the rest of the day's session, nearly five hours, in disposing of this class of bills, principally pension bills, and other routine matters. A recess was then taken until 8 o'clock, the night session being for the consideration of pension bills.

The House at its evening session passed a dozen private pension bills, and at 10.30 adjourned until to-morrow.

NEWS OF THE NAVY.

The Cruiser Montgomery Cannot Go To Tampa for the Coast Defence Convention—The Raleigh or Newark Will Be Sent There.

By Telegraph to the Morning Star.

WASHINGTON, Jan. 15.—Commodore Sicard telegraphs the Navy Department that the cruiser Montgomery will need propeller blades which will take a week to attach, thus keeping the vessel in dock until the 31st. The vessel cannot, therefore, go to Tampa for the Coast Defence Convention on the 20th and either the Raleigh or the Newark will be sent there.

The Steel Board which has been considering the defective material furnished by the Carnegie Company for the battleships Kearsarge and Kentucky, Illinois and Alabama, has recommended to Secretary Herbert that the shipbuilders be permitted to go ahead with the work on these vessels, and in case any plate develops weakness while being formed to fit the frames, a thorough test shall be made of the group of material to which the plate belongs and if weakness is shown, the entire group shall be rejected. Secretary Herbert has approved the suggestion, and at Newport News, where most of the workmen had to be laid off, operations will be resumed. The Steel Board have also suggested certain changes in the specifications which if adopted will go a long way towards preventing further steel frauds.

Officers of the British Commercial Expedition in Africa Massacred by the Natives.

By Cable to the Morning Star.

LONDON, Jan. 15.—Dispatches received at the Foreign Office this morning say that Capt. Boiseragon of the Niger coast force and Consular Officer Locke, who were of the British commercial expedition recently reported massacred by wild tribesmen in the territory of the King of Benin and were supposed to have perished with the others, have arrived at New Benin, wounded and exhausted. They succeeded in escaping from the onslaught of the natives and wandered in the brush for a week before reaching New Benin. All of the rest of the party, Consul Phillips, Consular Officer Campbell, Maj. Crawford, Captain Maling, Dr. Elliott, two civilians and about 250 Kroomen and native carriers, with the exception of seven Kroomen who made their escape and brought the news of the massacre to the officials of the Niger Protectorate, are believed to have been killed.

M'KINLEY'S CABINET.

Senator Sherman to be Secretary of State—Ex-Gov. Long of Massachusetts Will Have a Place—Gen. Alger May be Secretary of War.

By Telegraph to the Morning Star.

CANTON, Jan. 15.—Senator Sherman who this afternoon authorized the Southern Associated Press to positively announce that he has accepted the portfolio of State, and ex-Gov. John D Long of Massachusetts, who will in all probability be in Maj McKinley's Cabinet, sat down at table with the President-elect The other guest at luncheon was Senator Burrows, of Michigan. Senator Sherman arrived at the house about an hour and a quarter before noon and left for Washington at two o'clock. He had a long talk with Maj. McKinley and they discussed many men and measures. Mr. Sherman said the appointments and the organization of the work in his department would not be considered till after the inauguration of Maj. McKinley. It is understood that the appointment of a First Assistant Secretary of State was not discussed to-day but the gossips have it that John Russell Young, of Philadelphia, Pa., was a consideration. Senator Sherman was in excellent spirits and seemed full of vigor. The visit of ex Gov. Long following so closely upon that of Senator Lodge, of Massachusetts, is construed to mean he is not unwilling to accept a place in Major McKinley's Cabinet. Senator Lodge assured Maj. McKinley that there were no objections to the appointment of Gov. Long on the part of the Massachusetts Republicans, and it may be deemed reasonably certain that he will be the New England member of the Cabinet.

Maj. McKinley and Gov. Long had a long talk and the latter left for the East by way of Cleveland at 4 p. m. It is not thought that the particular place in the Cabinet which is likely to be offered Gov. Long has been determined. No tender of a portfolio was made to-day. Gov. Long said he simply came to confer with Maj McKinley. Senator J. C. Burrows, of Michigan, came to see the President elect in the interest of Gen. Alger, whom she hopes will be appointed Secretary of War. Senator Burrows said the Republicans of Michigan had counted upon Gen Alger and that he had the hearty endorsement of the two Senators. Gen. Alger is also being urged by the old soldiers of the Union armies. Senator Burrows did not indicate that the portfolio had been tendered Gen. Alger, but the belief is pretty strong here that it will be. The differences that existed between Senator Sherman and Gen. Alger have been happily adjusted and form no obstacle whatever to the appointment of Gen. Alger to the Cabinet. This is stated upon high authority.

SILVER COINAGE.

Resolution Prepared by the Republican Senatorial Caucus Providing for an International Monetary Conference.

By Telegraph to the Morning Star.

WASHINGTON, Jan. 15.—The Republican Senatorial caucus this morning agreed to present to the Senate the resolution providing for an international monetary conference in the following form:

An Act to provide for the representation of the United States by Commissioners at an International Monetary Conference hereafter to be called.

Be it Resolved, By the Senate and House of Representatives of the United States of America in Congress assembled, that whenever, after March 4th, 1897, the President of the United States shall determine that the United States should be represented to any international conference called by the United States or any other country with a view to securing by international agreement a fixity of relative value between gold and silver as money, by means of a common ratio between these metals with free mintage at such ratio, he is hereby authorized to appoint five or more commissioners to such international conference; and for compensation of said commission and for all reasonable expenses connected therewith, to be approved by the Secretary of State, including the proportion to be paid by the United States of the joint expenses of any such conference, the sum of one hundred thousand dollars or so much thereof as may be necessary is hereby appropriated.

The resolution will be reported to the Senate on Monday by Mr. Chandler, who in the absence of Mr. Wolcott, chairman, is acting in his behalf. Some of the silver Democrats urge that the word "unlimited" should be added, and that there will be opposition from a few Senators by reason of the failure to use it. It is not thought, however, that the passage of the resolution will be endangered. A careful canvass of the Senate shows that there is a general willingness to permit the resolution to be adopted without much debate. The silver men will take little part in the discussion unless the gold men precipitate it. In that event, several silver Senators, among them Mr. Cockrell of Maine, will speak to the resolution, and the chances are that under such conditions a financial debate may be interjected into the proceedings of the Senate.

SUGAR AND COFFEE.

The Fight Between Havemeyer and Arbuckle—Ground Broken for a Sugar Refinery in Brooklyn.

By Telegraph to the Morning Star.

BROOKLYN, Jan. 15.—Ground was broken to-day for the Arbuckle sugar refinery in this city on the plot adjoining the Arbuckle coffee plant. It is the intention of the Arbuckles to push the erection of the building with all possible speed. To this end day and night gangs will be employed and the plant may be in operation by next August The building will cover the block bounded by John, Jay and Pearl streets and the river. The refinery will have a capacity of five to six thousand barrels per day. The increase from a capacity of twelve hundred barrels, which was originally fixed by the Arbuckles, has been made necessary by the aggressively antagonistic attitude of the Sugar Trust.

TOLEDO, O., Jan. 15.—H. O. Havemeyer, the sugar king, accompanied by his right-hand man in the present coffee war, Herman Sielchen, arrived in this city to-day, and according to the statements made by them the Sugar Trust intends to change its tactics in the fight being waged against Arbuckle Bros. Sielchen announced that the plant of the Woolson Spice Company would be quadrupled; that an immense sum of money would be expended on it, and that the Trust would become Arbuckle's greatest rival in the coffee business.

Enrique Trujillo, editor of the Cuban newspaper *El Porvenir*, New York city, was arrested by U. S. deputy marshals yesterday on complaint of the Spanish consul. Trujillo is accused of having aided and abetted a filibustering expedition which sailed from New York on the steamship Horsa, November 9th, 1895. He was put under $3,500 bail for examination on Saturday, January 23d. He furnished bail.

REFORMS FOR CUBA

DECIDED UPON BY A COUNCIL OF THE SPANISH GOVERNMENT.

To Be Put in Effect Immediately in Anticipation of the Advent of the McKinley Administration

By Cable to the Morning Star.

LONDON, Jan. 15.—A dispatch to the *Central News* says that at a Cabinet Council, over which the Queen regent presided, it was decided to immediately introduce reforms in Cuba and a decree putting the reforms into effect will be published on the King's fete day.

The dispatch also says it is probable that Julio Sanguilly, the naturalized American citizen recently sentenced in Havana to life imprisonment for conspiring against the Spanish Government, will be granted a free pardon.

The Madrid correspondent of the *Standard* confirms the statement that the Spanish Government has decided to immediately effect reforms in Cuba. It is added that the Government, in taking such a serious step on the eve of Mr. McKinley's advent to office, wishes to clearly indicate that it acted spontaneously in going even beyond the powers voted by the Cortes for which the latter must grant a bill of indemnity. These forms will show to what extent the Government is prepared to go in gradually preparing the colonies for autonomy without yielding the rights of Spain and Parliament.

PITTSBURG, PA., Jan. 15.—Senator Sherman passed through Pittsburg tonight en route from Canton to Washington. On the subject of Cuba Senator Sherman said: "It begins to look as though Spain would grant Cuba some kind of autonomy which will speedily end the war. If the Spanish Government would grant to the people of Cuba the same rights that are accorded to the people of Spain, it would have much to do with ending the struggle. I am in favor of non-interference in the affairs of Cuba."

S. R. Birdsey & Co. of Ocala Make an Assignment.

By Telegraph to the Morning Star.

OCALA, FLA., Jan. 15.—Messrs. S. R Birdsey & Co., dealers in hardware, groceries and crockery, have made an assignment to A. M. Birdsey, a son of the senior member of the firm, which is composed of S. R. Birdsey and his oldest son Albert Birdsey. They have been in business for the past eight years and were leading wholesale and retail merchants. They stood well and did a good business and were very popular with the trade. The bank failure is the immediate cause of their trouble. S. R. Birdsey being a director. Mr. Birdsey, Sr., feels assured, if time is given him, he can pay dollar for dollar, as the assets are largely in excess of liabilities. They carry a stock of $30,000.

RAILROAD DEVELOPMENT.

The Ohio River & Charleston R. R. to Extend Its Line in South Carolina.

By Telegraph to the Morning Star.

PHILADELPHIA, PA., Jan. 15.—It was learned to-day that the Ohio River & Charleston R. R., which is controlled by the Finance and Investment Company of Philadelphia, will extend its line from Blacksburg, South Carolina, to Gaffney, in the same State, and the management expect that the immediate result of the extension will be a substantial increase in earnings. It was explained by a director of the company this afternoon that the building of the road to Gaffney would make available the valuable water powers on the Broad river near Blacksburg, the development of which has been delayed because of the absence of transportation facilities, and that the extension will connect the Cherokee Falls Cotton Mills and those at Gaffney with the main line of the road, thus giving it considerable new traffic. There will be an issue of $600,000 bonds on the road in North and South Carolina for the purpose of building certain branches and making extensions. All the bonds furnishing sufficient funds for such new work as decided upon have been underwritten, but the shareholders will first be given an opportunity to subscribe.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
